AHLAN BEST SPA IN DUBAI 2011 & 2012

EXCELLENCE IN TRAINING

Education and training is at the core of SENSASIA. We have impeccable standards, and we ensure every member of our team is armed with the tools, personalised instruction and ongoing support to reach our intentionally high benchmark.

Every team member is inducted to the brand with intensive in-house training and regular performance evaluation. As well as learning every detail of how to deliver a treatment, with on-site practical experience at an existing SENSASIA property, we provide in-depth information on products, client consultations, customer service skills and sales tactics.

WHY **WORK WITH US**

SENSASIA offers more than 40 years of experience across our management and operations teams, built from careers at major international hotels including Banyan Tree, Ritz-Carlton, St Regis, Fairmont, Sofitel and Le Méridien.

Unlike other management services, we actively run, maintain and re-invent our own spa properties to meet the continually changing and increasingly high expectations of the client – a practice which has gained SENSASIA the solid and sought-after brand reputation it now boasts.
