

THE SENSASIA EXPERIENCE

SENSASIA Spa is the largest independent spa chain in the UAE.

We are long-term advocates on the benefits of massage for overall health and wellbeing, and have taken our services to a wide portfolio of business locations, events and private functions.

Indulge your team with our exclusive corporate wellness experience featuring 15 to 30 minute rejuvenating back, neck, and shoulder massages. Our skilled therapists deliver these personalized sessions directly at employees' desks or within a designated area.

We are also able to facilitate monthly sessions, which can be incorporated into your wider corporate wellness program.

WHAT WE BRING TO THE MASSAGE TABLE:

- A curated selection of premium massage oils
- Plush towels
- Ambient essential oil burners
- Our renowned lemon and ginger tea
- To perpetuate the spa ambiance, we leave a touch of SENSASIA's signature essential oil on each employee's desk, ensuring a lasting impression of tranquility and well-being.

WHAT UBER SAYS...

" Our company started working with SENSASIA Urban Spa a few months ago, as part of our corporate wellness programme. Twice a week, a set of dedicated masseuses visited our office and helped us relieve stress and replenish our energy reserves. ***The decision to work with SENSASIA was a great one, as our entire office now battles for a spot in the coveted massage room!*** In a nutshell, we all appreciate the expertise and dedication that SENSASIA brings to the table, and we would recommend this service to anyone interested in a high-quality spa experience. "

Fouad Chemlati
Head of Central Operations
